Boeing 747 Flight Crew Training

Practical flight training is performed entirely in the full flight simulator. Each practical training event is preceded by a 60- or 90-minute instructor-led briefing and followed by a detailed debriefing. Check rides are delivered by a qualified Boeing examiner, customer-assigned examiner, or approved regulator.

Boeing: Flight Training

The training prepares aircraft crew for identifying different types of fire, exercising firefighting procedures, using proper type of extinguisher, and taking preventive measures. Theory and practical training takes 1 day in total. The practical training is conducted in RFFT (Real Fire Fighting Trainer).

crew members, the commander and the co-pilot, to make decisions, and discuss the decisions.

Why does a Boeing 747 require a flight engineer as part of ...

Boeing built an unusual training device known as "Waddell's Wagon" (named for a 747 test pilot, Jack Waddell) that consisted of a mock-up cockpit mounted on the roof of a truck. While the first 747s were still being built, the device allowed pilots to practice taxi maneuvers from a high upper-deck position.
