Manual focus confirmation on Canon 70D Apr 23, 2016 Hi all, This is my very first post on this forum, so I apologize if I posted this message in the wrong section. I have a Canon 70D, and I recently bought a Samyang 85mm f/1.4 lens for the fun of it. As you may already know, this is a manual lens.

## **Manual focus confirmation on Canon 70D: Canon EOS 7D / 10D ...**

Focus Confirmation is a standard feature of Canon cameras, works in One Shot mode, as well as Manual... so long as the camera was set to One Shot mode before switching the lens to manual or installing a manual focus only lens. It will even work with vintage, adapted lenses, so long as the adapter is the "chipped" type.

...

Manual focus is performed by rotating the focus ring on the lens barrel -- not via any buttons on the camera. The buttons on the camera simply let you select which AF point or points you want to use when the camera performs focus (if the lens is in auto-focus mode) or for focus-confirmation (if the lens is in manual focus mode).

# Read Online Canon Manual Focus Confirmation

Among the EOS RP camera's manual focus aids, Focus Peaking helps establish the focus area quickly and clearly. With manual focus peaking, the outline of the area in focus is indicated by a colored line. Focus Peaking is usable in conjunction with the EOS RP's Focus Guide feature, and can be customized with peaking color and detection level ...

However, Canon EOS auto-focus system needs a lens to speak to itself to work. The lens communicates its focal length and aperture values and the camera activates AF after confirming these. Some clever chaps cracked the code and embedded it in a tiny PIC chip and slapped those on Canon EF adapters for manual lenses.

## **Hack Canon EOS 300D to Confirm Focus With All Lenses**

...

It is possible that this is a focus calibration issue (this is done at the factory). Camera's in Canon's mid-range and above (70D, 80D, 7D, 6D, 5D, & 1D series) allow for "auto-focus micro-adjustment" (AFMA) which lets you tweak the focus system if you find it's fractionally front-focusing or fractionally back-focusing a subject.

## **T7i Focusing Issues? - Canon Community**

Focus Confirmation is automatic, and should happen on a 5D with all Canon EF lenses. There are several situations, however, in which the confirmation light may not work. The focus confirmation uses the auto focus (AF) system, so any time that AF is not possible the confirmation light may fail.
