Harley Manual Primary Chain Adjuster

The Screamin' Eagle® Manual Primary Chain Tension Adjuster is a real benefit in those aggressive racing situations where frequent drag racing starts and high rpm speed shifting are part of the riding experience.

Screamin' Eagle Manual Primary Chain Tension Adjuster ...

After putting the original Harley auto tensioner back in, the primary became a lot quieter. I do have the Twin Power 34 tooth sprocket with the auto tensioner. No more manual tensioner for me. The last two pictures shows the amount of wear after 25,000 miles. Basically need a new tensioner and Twin Power doesn't provide a shoe replacement.

Twin Power Tension Reliever Manual Primary Chain Adjuster 4635

Permits manual selection of primary chain tension and is a direct replacement for the original equipment automatic version. The anodized billet aluminum adjuster allows you to fine tune and lock settings. The manual adjustment locks the chain tension in place to prevent free play during severe shifting. Kit includes mounting hardware.
