Learn what makes vertebrates and invertebrates different in this clever poem! Kids will choose an animal to classify as a vertebrate or invertebrate in a writing activity, plus learn some new vocabulary words, and answer reading comprehension questions. An answer key is included.

Science: Animal Worksheets

Vertebrates - Animals with Backbones. Scientists classify animals into two categories depending on if the animal has a backbone or not. As you know, invertebrates are animals that do NOT have a backbone and vertebrates are animals that DO have a backbone. Vertebrates are divided by scientists into five classes: fish, amphibians, reptiles, birds, and mammals.
